ROSA® MRL Beta-Lactam antibiotic residues

Charm MRL™ was specifically designed to limit rejection of non-violative milk by overly sensitive screening tests. Charm MRL is the only beta-lactam test that detects 10 primary beta-lactams at or below Maximum Residue Limits.

The test is easy to use, portable and requires minimal equipment. Charm MRL saves milk that is safe and wholesome for processing and consumption.

Specifically matches E.U. Maximum Residue Limits Rapid One Step Assay (part of ROSA family of tests)
Minimal equipment required Results in 8 minutes! Continuity from farm to fork
